It is the first training course of excellence in IT, leading to a diploma, completely free, with no profile requirements. And good news: you don't need to already know how to code to enter 42 le Havre!

On the program of this school: a project-based approach so that you progress and develop technical and human skills sought after on the job market.

What is Method 42 ?

- > No lessons, no teacher, no class: you find your own solutions on your own. The teaching team supports you in this process.

- Peer to Peer learning: to progress at 42, you need to work in a group, call on the community to surpass yourself and then share your lessons with your classmates.
- Project-based teaching: you will be an actor in your own success around a 100% practical course.
- To make a mistake is to move forward: at 42, failure is valued because it is the path to success.
- Gamification: pedagogy 42 is based on a video game system, you need to complete a "level" to unlock the next one. Fun learning!

In summary, 42 Le Havre allows you to learn how to learn to be able to renew yourself throughout your career. This is why 42 is a lasting training.

And after 42 Le Havre?

Based on the observation that 42 does not train for specific professions or technologies which will soon be forgotten, the emphasis is placed on the ability to reinvent yourself in order to be able to enter the job market sustainably. Leaving 42 Le Havre means being able to integrate all digital positions, existing or future.

Some examples of fields and professions :

- Development : devops, web and mobile dev, back end dev, front end dev, full stack dev
- Networks, infrastructure and security : systems and network administration, cloud network administration, cybersecurity technician
- Data : data analyst, dataminer, data architecture and development
- Artificial Intelligence : AI Architect, machine Learning developer, machine Learning engineer
- Security : site reliability engineer, security analyst, cybersecurity consultant, security engineer, database administrator, qa engineer

The campus

In order to welcome you as best as possible, 42 Le Havre benefits from exceptional material conditions.

The extremely bright and completely renovated 620m² campus has :

- > 2 training platforms equipped with computer stations, for a total of 160 workstations
- > 1 meeting room
- > 1 relaxation room with TV, games console, table football and an equipped kitchen area

The school has been designed so that students feel comfortable there and is of course suitable for anyone with reduced mobility.

42 the haven awaits you! To test the admission games, head to:
