

A NEW BACHELOR FOR SAINT JO SUP

The first year Digital Humanities bachelor's degree opens its doors at Saint Jo Sup for the 2021-2022 school year. In particular, it will allow students to validate, after 3 years of study, the RNCP Multimedia Communication Officer title (certification registered with the RNCP, recognized by the State).

Published on 26 March 2024

This bachelor's degree, based on innovative pedagogy, now allows students with a baccalaureate to follow multidisciplinary training combining project mode, e-learning platforms, flipped classes and design thinking.

This preparation reinforces the necessary bases of information and communication, sociology, graphic and audiovisual creation, general culture, management, etc. to graduate with a bac +3.

It is followed by two years where each student will be directed towards professionalization and the specialty that suits them the most.
