The integration day for students at the Le Havre Normandy Campus

*Published on 26 March 2024*

On October 7, 26 teams of 10 students, accompanied by their supporters, competed in numerous cultural and sporting events!

The Student Life Service of the City of Le Havre, organizer of the event, offered a friendly moment to the students (new arrivals) while introducing them to the city and its heritage.

## The program

---

Collage proof and painting reproduction at MuMa; blind test Australia: recognition of animal songs and cries and drawing challenge at the Natural History Museum; riddles "LH in pieces" and "LH in quest" at the Maison de l'Armateur and at the Hôtel Dubocage.

Outside, numerous events (hockey, archery, bungee shooting, mechanical bull, inflatable structures, turning everything upside down, etc.) enlivened the course and allowed supporters to score additional points for their team.

From 6 p.m., the students were invited to the Bains des Docks swimming pool to relax and attend the awards ceremony, which was announced by the City's elected officials.
