CHRISTOPHE BRENTERCH

Student in Master of Public Law and local authorities at the University of Le Havre-Normandie

Doing my internship in a local start-up gives me the desire to be an entrepreneur !

Published on 30 March 2023

His background

Originally from Rouen, I followed a degree in general law. Attracted by public law, I joined the University of Le Havre-Normandie to do my Master's degree in public law and local authorities.

Choosing a start-up to do his internship

I decided to do my internship at the start-up Délibia, which has developed a search engine based on artificial intelligence that aggregates all national deliberations. Délibia was supported by the incubation program of the French Tech Havraise at the Cité Numérique.

Acting as a legal consultant, my main missions are doctrine (gathering documents for the legal base), writing notes, dealing with legal issues, reasons for changes in reforms...

My professor (DGS of Roumois Seine) is very invested in the project and convinced me of the opportunity to realize this internship in order to understand the stakes of the communities and the digitalization. Moreover, the development of LegalTech and my curiosity to discover the world of start-ups confirmed my choice.

His feeling

This internship has made me grow in my professional experience. I work independently, I acquire many skills thanks to the meetings with lawyers and communities, but also skills in marketing and on the world of entrepreneurship. And let's not forget the friendly work environment which is motivating !

Le Havre, a dynamic city where life is good

The proximity of the beach is a real asset, I love to relax there after a day and enjoy the sunset while having a drink at the Petite Rade.

The arrival of the Lime scooters has made it easier for all students, especially the girls, to get home safely at the end of the evening.

Plans for the future

I will take my defense on September 5, 2022, then the territorial attaché exam in November (written). In the meantime, I will go to Amsterdam for a month and make a trip to Japan. From January, I will start looking for a job while waiting for the result of my exam and to know if I am eligible for the oral exam.
