## A unique festival of its kind

The Béton Festival stands out for its friendly atmosphere and exceptional setting. Located in the setting of Le Havre under the famous Catène and faithful to what it defends, Béton once again proves to be a pioneering, prescribing and multidisciplinary festival while bearing the attributes of a curious and demanding generation.

On the music side, here are the names revealed: Étienne de Crécy, Rounhaa, TIF, Isaac Delusion, Celeritas, Yvnnis, Meel B, Magma Collectif...

In addition to concerts, Béton offers activities that place the architecture of our unique city at the center of this immersion weekend (commented walks, talks, screenings, print club, workshops). Then, a major event will be held on Sunday, free and open to all: the

Criée Béton which will bring together around ten restaurateurs developing special menus for the occasion in order to close the festivities in a gentle and beautiful way.

It's a perfect opportunity to meet other students and create lasting memories.
