

ISEL FINISHES SECOND IN THE CRISIS MANAGEMENT HACKATHON COMPETITION

Iona, Lucie, Hugo, and Chloé, a team of second-year students in logistics engineering at ISEL, have finished second in the first edition of the Crisis Management Hackathon competition.

Published on 28 May 2021

As part of their supervised project, they set up a decision support tool in the form of a digital platform and finished second in the first edition of the Crisis Management Hackathon competition.
