

# IMPACT FESTIVAL!

---

The Impact Festival! Comes back in force from April 2 to 4 at the Student House with a feminine and committed program.

*Published on 29 March 2024*

## **Organized by the cultural service of the University of Le Havre Normandy**

---

This festival promises to be a celebration of feminine and feminist expression in urban cultures. By highlighting artists and speakers, Impact! seeks to question and promote the representations of women in these environments where they sometimes struggle to find a legitimate and equal place with men.

The artists invited to this edition will explore various artistic fields of urban cultures, highlighting their creativity.

Among the names to remember for this edition are Vicky R, Petite Poissone, Benjamin Weill, Le Z, ICAPS&JADE and Marion Desquenne.
