A message from the Director

66

We have the privilege and responsibility to train about 100 early childhood educators and specialised educators each year. Their entry into working life is made easy by the experience acquired during their sandwich course training and the professional network developed during their studies.

The good reputation of our institution and training programmes relies on the quality of our teaching staff, who have made IFEN very appealing to students.

By choosing IFEN, students will also choose to live on a vibrant campus and in a city open to the world !
