

REOPENING OF THE UNIVERSITY RESTAURANTS AND APPLICATION OH THE 1€ STUDENT MEAL PLAN

Since Monday 8th February, university restaurants have once again been allowed to welcome students, who are now offered a full meal for 1 €.

Published on 24 March 2021

- > A reinforced health protocol to increase safety

The reopening of university restaurants relies on a reinforced health protocol (distance of 2 metres between each guest, ban on gatherings, masks worn when moving around the facilities, take-away orders only, etc.). Consequently, the reception capacity of the dining rooms will however be limited.

- > Most of the 32 CROUS restaurants that have provided take-away meals since 1st November have reopened their dining rooms to students.

Students are therefore able to eat their take-away order seated in a suitable and warm space. CROUS Normandie still provides take-away meals, as has been the case since November 2020.
