## Prize objective

---

Created in 2022, the Student Entrepreneur Prize by RENE aims to promote, support and support the creation of businesses in Normandy by higher education students. Support for projects results in financial aid of 1,500 euros and visibility with partners and business leaders who are volunteer members of the Réseau Entreprendre Normandie Estuaire association.

The competition highlights the complementarities between support systems for student entrepreneurship and the Réseau Entreprendre Normandie Estuaire association which supports, in particular, business creators.

The Pépite Normandie, La Manu, Les Entrep' Normandie, 42 Le Havre and the EM Normandie incubator will be partners of the competition for this edition.

## How to apply?

The selected candidates will be able to compete for the RENE association's favorite prize on September 26, 2024 and try to win the public vote after a 3-minute pitch.
