Supporting young people in their choice of professional orientation

The objective of the Student Fair is to support 15-25 year olds in finalizing their choices of orientation, reorientation, sector or profession.

It is aimed at high school students, prep class students, students or holders of a baccalaureate + 1, + 2 or + 3, as well as parents or education professionals.

Visitors will have the opportunity to obtain information from higher education establishments, training organizations, specialized schools, or even professionals. In total, around fifty actors will answer questions from high school students and students. Many training sectors are represented: commerce, management, communication, artistic, digital, engineers, health, social and sport, etc. Conferences bringing together educational leaders and higher education experts will punctuate the day.

The Student Fair has been organized for 2 years in partnership with the Normandy Region, the rectorate of the Rouen academy, the City of Le Havre and the Le Havre Seine Métropole Urban Community.

Prepare your visit

To prepare and optimize the public's visit, the Salon de l'Etudiant website offers practical information and allows you to learn about the establishments present and conferences organized.

Each visitor downloads their personal invitation online. This is free and required to access the lounge.
