 **Tram** : A & B Université

 **Bus** : 9 Université

Founded in 1984, the University of Le Havre Normandie aims to provide its students with innovative, high quality educational programmes relying on renowned research facilities and long-standing partnerships with major players from the socio-economic world.

This multidisciplinary university offers more than a hundred training courses in various fields. It also aims to facilitate the professional integration of its students and promote their international mobility. With the success of its students at the heart of its concerns, the University of Le Havre Normandie offers a favourable environment for learning and personal development.

An innovative training offer in line with the socio-economic world

The educational programmes provided by the University of Le Havre Normandie have evolved with the new economic challenges and the adaptability of courses has been improved.

With more than a hundred training programmes, the university offers courses accessible

to high school graduates and characterised by their progressive specialisation :

- > University Technology Bachelor's Degree (BUT)
- > Bachelor's Degree
- > Professional Bachelor's Degree
- > Master's Degree
- > Engineering Degree
- > University Degree (DU)
- > Certification
- > Undergraduate Degree (DAEU)
- > PhD

The courses available are divided into 4 faculties :

- > Arts, Literature, and Foreign Languages
- > Law, Economics, and Management
- > Humanities and Social Sciences
- > Sciences, Technology, and Health

The students are welcomed on 3 sites (Caucriauville, Frissard, Lebond) within :

- > 3 Teaching and Research Units (UFR) : Sciences and Technology, International Affairs, and Arts and Humanities
- > 1 University Institute of Technology (IUT)
- > 1 school of engineering : the Higher Institute of Logistics Studies (ISEL)
- > Without forgetting to mention the In-house Training Service and the Apprentice Training Centre (CFA).

Providing students with a strong theoretical background while developing their professional skills, the courses rely on the scientific potential of the university (12 research facilities, of which two are associated with CNRS and one with INERIS) and long-standing partnerships with major players from the socio-economic world.

Facilitating success and professional integration

The University of Le Havre Normandie has placed student success at the heart of its

concerns. Beyond the courses chosen by the students the university community is committed to providing them with a quality environment and an individualised educational support.

In order to facilitate their professional integration, a service gathers all activities related to educational counselling and information : the SUIO. With the help of the teaching staff, the SUIO also supports students looking for internships and helps young graduates with their career plans.

The assets of the University of Le Havre Normandie are those of a university on a human scale that promotes exchanges between students and teacher-researchers and where the quality of life, recognised by all, is favourable to personal development and discoveries.

## **An international dimension**

With 174 partner institutions around the world, students from 85 countries on its campus, and a third position in the latest national ERASMUS ranking, the University of Le Havre Normandie is characterised by its openness to the world.

Most programmes provided by the university include an international dimension, either through bilingual courses or through the emphasis put on foreign languages and civilisations.

To encourage students to explore new horizons, most courses include study abroad programmes and internships in Europe or around the world. Students can also apply to be language assistants, to participate in summer schools, or to go on a language holiday abroad, etc.

## **Quality of life**

The quality of life on the campus is crucial for the University of Le Havre Normandie. Everything is done to make sure each student benefits from favourable learning conditions and quality facilities for sporting activities, but also enjoys the vibrant campus life and attractive cultural programme.

Various activities are organised for students to help them integrate into life at the university and allow them to combine studies with social life... and see the university as a campus to live !

The university offers many sports activities. Both competitive and leisure sports activities are managed by the Physical Activities and Sports Department of the University (SUAPS), which relies on quality facilities and also takes advantage of the ideal location of the university by the sea to offer water sports activities.

The Cultural Department and the University Library enliven the campus with a variety of events designed to foster artistic encounters and sharing. They also encourage students to practice artistic and cultural activities. Partnerships with local institutions and cultural players give students opportunities to take part in some of the main local events.

## Grade levels :

- > Advanced Technician's Certificates (BTS/BUT)
- > Professional Bachelor's Degrees
- > Bachelor's Degrees
- > Master's Degrees
- > PhDs
- > University Degrees (DU)

## Training courses :

- > In-house training
- > Sandwich course training

## 108 training courses available :

- > 11 University Degrees (DU) in Foreign Languages
- > 10 University Technology Degrees (15 specialties)
- > 15 Bachelor's Degrees
- > 17 Professional Bachelor's Degrees
- > 22 Master's Degrees (35 specialties, including 8 in partnership with other institutions)
- > 2 five-year engineering courses
- > 26 PhDs
- > In-house training : 3 University Degrees (DU) and 2 Undergraduate Degrees (DAEU)

## Number of students :

- > 77,807 students in 2019

### A message from the President

*Dear future students,*

*By joining the University of Le Havre Normandie, you are joining a university whose ambition is to provide you with innovative, high quality educational programmes relying on renowned research facilities and long-standing partnerships with major players from the socio-economic world.*

*Our multidisciplinary university offers more than a hundred training courses in various fields to help you improve your knowledge, develop your skills, and facilitate your professional integration as well as your international mobility projects.*

*With your success at the heart of our concerns, we will provide you with a favourable environment for learning and for your personal development. You will benefit from modern facilities and workspaces adapted to your needs to help you be successful.*

*Various activities will be organised to help you integrate into life at the university and allow you to combine your studies with your social life, and see the university as a campus to live ! Indeed, studying at the University of Le Havre Normandie means you will benefit from favourable quality facilities for sporting activities, enjoy a vibrant campus life and attractive cultural programme, while your initiatives will always be supported.*

*Fulfill your academic goals, enjoy your student life, and get ready to shape your future !*

*Pedro Lages Dos Santos*

*President of the University of Le Havre Normandie*
